

# Silicon Valley Style

## Delivering the Full Spectrum

*“Custom designing a new home is the perfect opportunity to elevate your lifestyle,”* says Amy Fischer, founder and creative visionary of Spectrum Interior Design. *“We guide and educate our clients through the complete design process to help them understand how their new home could better serve them.”*

With nearly 20 years of experience in luxury custom residential design and high-end construction development, Fischer understands the importance of an integrated design-build team from the start. Clients benefit from the firm’s comprehensive expertise and take confidence that their end vision is embodied from the beginning. *“We love when our clients*

*see themselves reflected in their new home through every finishing detail!”* Fischer says.

Spectrum Interior Design creates homes that exude an understated elegance with timeless sophistication. Their signature aesthetic layers fresh simplicity over classic design, fusing refined

color palettes with tranquil textures.

Fischer and her team are expanding their Silicon Valley-based design showroom to include a gallery of home accessories and bespoke seasonal décor curated by their new brand, Spectrum Fine Living. The extended offerings further support their clients’ evolution of personal expression.
